

## Instruction – how to use the:

# Subsidy Calculator - June 2026

This simple tool is provided to support indicative subsidy calculations in accordance with the [2025-26 Training Fee Framework \(v4.6\)](#)

The screenshot shows the 'SUBSIDY CALCULATOR' interface. At the top left is the Government of South Australia logo. The title 'SUBSIDY CALCULATOR' is centered. A 'Click Here to Reset Filters' button is in the top right. Below the title, there are several input fields: 'Max Subsidised Units' (set to 0), a disclaimer text box, and a 'Student Course Fee Exemption' toggle (set to No). Below these are three dropdown menus for 'Course', 'Unit', and 'Delivery Location', all set to 'All'. A table lists various units with columns for 'Unit', 'Payment Hours', 'Subsidy Per Hour', and 'Net Subsidy'. All values in the table are currently 0 or \$0.00. At the bottom, four large boxes display the results: 'Completion Payment' (\$0.00), 'Payment Hours' (0), 'Total Subsidy' (\$0.00), and 'Average Subsidy Per Hour' (\$0.00).

Pic 1. Interim Subsidy Calculator

## How to use the Calculator

### 1. Reset Filters

- Click on the button at the top-right of the display, to Reset Filters

### 2. Choose a Course

- Search for and select a Course.
  - Begin search by typing any part of the course name or course code, or by using the vertical scroll bar.
  - Click on the Course name or check the box, to select the course.
  - To clear Course selections, click on the 'eraser' symbol at the top-right corner of the Course table, or click on the highlighted 'check box' next to the selected course.

### 3. Add Units

- Search for and select units of competency or modules from the Unit list.
  - Begin search by typing any part of the unit or module name or code, or by using the vertical scroll bar.
  - Click on the unit name or check the box, to select the unit.
  - Continue to search for and add additional units, the search criteria can be typed over to find additional units, (this does not clear previously selected units).
  - To clear an individual unit from the selected list, click on the highlighted 'check box' next to that selected unit.
  - To clear all selected units, click on the 'eraser' symbol at the top-right corner of the Unit table

### 4. Select Delivery Location

- Search for and select a delivery location
  - Begin search by typing any part of the suburb name or post code, or by using the vertical scroll bar.
  - Click on the suburb or post code, or check the box, to select the delivery location.
  - To clear location selections, click on the 'eraser' symbol at the top-right corner of the Delivery Location table, or click on the highlighted 'check box' next to the selected location.

**Note:** This tool only allows for location selection at the course level (not unit level). The calculation may be repeated with different delivery locations selected, to find information on various locations.

### 5. Adjust for specific circumstances

- To calculate the subsidy with inclusion of the Course Fee Exemption reimbursement,
  - set the Student Course Fee Exemption to Yes.
  - The subsidy amount will automatically be adjusted up to include the Course Fee Exemption reimbursement, for all units in the course.
- To calculate the subsidy where Recognition of Prior Learning (RPL) is provided, (rather than provision of training and assessment services), export and reduce the displayed subsidy for that unit by 50%.

**Note:** This tool does not automatically adjust the subsidy results to show the 50% reduction for RPL.

- To calculate the Concession reimbursement please refer to the [2025-26 Training Fee Framework \(v4.6\)](#)

## 6. Review Results

- The maximum number of units that may be subsidised for this course is displayed at the top-left corner of the display.
- The main display table in the visual holds subsidy details per unit.
- Summary tiles display information per course, when the course is comprised of the selected units.
- Focus mode can be helpful to view longer lists of units in table form, and to clear data.
- Click the 'square/up-arrow' icon from the top top-right corner of the Unit table to access focus mode

17  
Max Subsidised Units

The Subsidy Calculator can be used to estimate the subsidy at the time of calculation. The payable subsidy amount is indicative and may vary during the contract or Training Account period. The subsidy amount will be confirmed when payments are processed. It is the responsibility of the provider to ensure that the units selected comply with the packaging rules of the course. See [www.training.gov.au](http://www.training.gov.au)

Student Course Fee Exemption  
No Yes

Course: CPC30820 - Certificate III in Roof Tiling

## How to Download / Export Results

Export data from Unit table to .xlsx (Excel)

1. Hover over or click within the **Unit table**
2. Click the **ellipse/three dots (...)** in the top-right corner of the table
3. Select **“Export data”**
4. Choose format:
  - Data with current layout
  - Summarised data
5. Click **Export** and save the file
